PRACTICE FOR SALE Looking for a likeminded chiropractor seeking an incredible opportunity. For over 39 years, I have served the Sonoma County community, providing exceptional care in a serene park-like setting. In search of a passionate chiropractor to carry on my legacy and continued commitment to exceptional patient care. I run a Cash Practice, with High Demand. Patients appreciate the exceptional care they receive, and the current waitlist includes 40 eager new patients waiting for space to open up. Only like-minded chiropractors willing to learn my methods of evaluation and treatment need respond. My goal is to maintain the continuity of the existing wellness practice, which has worked so well for so many years. "Great for solo practitioners"

TrackStat has become an integral part of my practice. A solo practitioner, TS has helped automate so many things to free up more time for what matters most- direct patient care.

Dr. Jonathan Hartman

"It's been a Godsend for Personal Injury"

We have 7 personal injury offices, and a friend recommended TrackStat for patient tracking. It prevents patients from falling through the cracks and staff love it. We're getting Google reviews and they love the patient communication.

Dr. Anthony Pirritano

"It's a no brainer if you want to grow"

TrackStat is a comprehensive system that will seamlessly increase our patient retention and maximize our ability to help more patients! It's a no brainer for any chiropractor who wants to grow!

Dr. Landon Amonette
- ChiroCom Owner

We switched from Review Wave

because there were too many features we wanted from TrackStat. The staff loves the software and it makes their life easier. I'd highly recommend TrackStat.

Dr. David Hughes

"The integration with ChiroTouch is amazing"

This is a powerful yet simple to use software. Our staff loves it and so will you.

Dr. Mike Cormier

"250 Google reviews in a few months"

Our online reviews have increased by 250 in a few months and we've been able to reduce our overhead with more automation. We do a lot of insurance, personal injury and workers comp. It used to be a lot of work, but it's all easier with Track Stat.
